

Meeting Evaluations  
Operations/Development Partnership Meeting  
February 9<sup>th</sup>, 2006

---

What was most valuable for you?	What would you suggest that would help future meetings be more successful?	Overall Rating of the meeting?	Comments
Great presentations	The meeting was just fine	4	
My 1 <sup>st</sup> meeting. It helps to know that there are open mode of communication between Development and Operations.	More details or examples for the new processes. We need to test the new processes on real challenges. What is our success with new processes?	3	
All of it.	Keep up the good work.	4	
Networking and getting updates	Nothing – The meeting length was just right.	3.5	
Julio and Mike Manthey's presentations	Proper prep. most were good	3.5	Good Meeting ?? on Spec Book
Presentations were great.	Slightly bigger room	4	
Team updates 1. Julio's presentation was excellent setting trends will help both Dev & Ops improve their processes. 2. Sean's presentation recommending a management system can be supported by Julio's proposed reports.	Commitment by the "Big 4" to work with Julio to establish repots that will help both Dev & Ops to more successfully work with our consultant/contractors because we have hard data to support requirements or correct activities and/or reduce the number of change orders.		Everyone was here and prepared. Ginger kept everyone on track.
	Make sure all teams have presenters	3	

<b>What was most valuable for you?</b>	<b>What would you suggest that would help future meetings be more successful?</b>	<b>Overall Rating of the meeting?</b>	<b>Comments</b>
<b>Good Presentation</b>		<b>4</b>	
<b>Julio's discussion of reports available</b>		<b>4</b>	<b>Better than expected. Print agendas without large black space this wastes toner and is significant when many copies are made.</b>
<b>Subprogram delivery and A. Mgmt Plan</b>		<b>3</b>	
<b>Expectations laid out by State Engineer for team participation and accountability</b>		<b>4</b>	
<b>Status of teams. Networking</b>	<b>More time for discussion.</b>	<b>4</b>	
	<b>Someone knowledgeable with the topic should be presenting their status report, ex. The CCP Report</b>	<b>3</b>	
<b>Mike Manthey's presentation Julio's presentation</b>	<b>Be more specific on Proj. Dev. Process Manual</b>	<b>3</b>	
<b>Learning that issues are being addressed.</b>		<b>3</b>	
<b>The importance of making sure change orders are properly coded.</b>	<b>Not at this time</b>	<b>3.5</b>	<b>Team presentations were very good. Mike Manthey and team did an excellent job</b>
<b>Updates &amp; Networking</b>	<b>Keep pressing on with teams</b>	<b>3</b>	

<b>What was most valuable for you?</b>	<b>What would you suggest that would help future meetings be more successful?</b>	<b>Overall Rating of the meeting?</b>	<b>Comments</b>
<b>The progress of the teams</b>		<b>4</b>	
<b>Meeting the folks involved Seeing programs being developed</b>	<b>A bit more history for new folks</b>	<b>3</b>	<b>Good Information</b>
<b>Informative presentations</b>		<b>4</b>	<b>I learned many things very informative</b>
<b>Discussion on sub programs (monthly)</b>	<b>Handouts of flow charts – some had them some didn't</b>	<b>3.5</b>	
		<b>3</b>	<b>Good progress evidenced by team presentations. Disappointing to not have Public Involvement here to present.</b>
<b>To get update information from the ongoing project</b>	<b>To move process forward set a target date and get the results done. Especially for Project Development Process Manual.</b>	<b>3.5</b>	<b>A snack should be provided!</b>
<b>Productive, Good Information</b>		<b>4</b>	<b>Meeting worked well as an update</b>

<b>What was most valuable for you?</b>	<b>What would you suggest that would help future meetings be more successful?</b>	<b>Overall Rating of the meeting?</b>	<b>Comments</b>
<b>Hearing the progress of all projects. Hearing Sam Elters hold people accountable for these projects. People had some of the best info I have seen yet. Hearing that the State Engineers Office will help with roadblocks is encouraging.</b>	<b>Collect issues from team like we used to. Managers do not consistently ask their employees the issues and then bring them forward. Require teams to submit a project plan – through implementation (follow process)</b>	<b>4</b>	<b>Overall great meeting</b>
<b>Hearing Sam say he expected accountability</b>	<b>Visuals need to be readable – too many things on a slide too small font on too many presentations</b>	<b>3</b>	<b>Sad signal from our communications office that they attend by fax!</b>
<b>This was my first meeting. The topics were interesting and provided valuable information.</b>		<b>4</b>	<b>Good meeting the presentations helped in my learning more of the state wide functions</b>
<b>Sharing progress of problem task assignments</b>		<b>3</b>	
<b>Reports helpful to see how we can improve our processes</b>		<b>3</b>	

What was most valuable for you?	What would you suggest that would help future meetings be more successful?	Overall Rating of the meeting?	Comments
The opportunity to network and receive updates on current task teams. I think the work Julio is doing in his team will be very beneficial.			Good Meeting
Updates on process improvements	More humor	3	
SATs Update		4	Excellent presentations
A lot of the presentations were helpful		4	
Good presentations most presenters were well prepared. Handouts and visual presentations are helpful and should be expected of all presenters.	Handouts and visual presentations	4	Overall very good meeting. Much progress has been made by most process improvement teams
